

Now you have a way to tell your story.

The People's Post gives San Diegans a way to record and share their unique, personal and true stories in 4 easy steps:

1. CONTACT the San Diego County Library at 858.495.5037 or info@thepeoplespost.org to schedule an appointment with a community videographer.

2. DEVELOP your story idea about a local subject – personal, community or cultural:

- An important event
- An inspiring person
- A significant place such as a park, school or other gathering place
- A meaningful personal item such as a family heirloom or other memento

A sample Story Starter form is available at participating County Libraries or online at ThePeoplesPost.org. Add interest to your story with photos, costumes, art, or music, but please note: only personal photos and original work may be used. Use of copyrighted material is not permitted.

3. RECORD your story for free with a community videographer; get a free DVD of your finished video.

4. SHARE your story with family and friends. Your story may be uploaded to ThePeoplesPost.org to add to the growing body of community knowledge that helps San Diegans to better understand and enjoy the rich diversity of our region.
